ABOUT

Based on the highest efficiency standards and striving for ambitious goals, Cordoba Eye was founded to provide the best solutions for the Saudi construction market.

Since day one in 2011, the company has become well-known for its unique high-quality selection of products which were offered in its first branch in Riyadh. Over a decade of expertise can be enough to establish our renowned position in this market, but we still pursue our overactive imagination. We have built a relationship based on trust with our clients since they always find the best collection of Porcelain, Terracotta, and swimming pool mosaic tiles, adhesives and sanitary ware that they look for. We offer you the best collection from worldwide top brands and manufacturers as well as a professional service that facilitate our expansion to cover the vast areas all around KSA. The smart effective leadership of Cordoba Eye management along with its valuable deeply rooted experience created a fast growing brand that has become well known for a wide range of products and the ability to provide customized products for both small and large-scale projects. We can proudly say that we have served to create icons and marvels across KSA.

VISION

To breathe life into visions and demands of construction market clients.

MISSION

- To go beyond customer satisfaction by providing high quality products, services and values.

RREALONDA
CERAMICA

We are a Spanish manufacturer of flooring and wall tiling with vast experience and a strong international vocation. Our ceramic collections have been designed and conceptualized to meet the demanding requirements of architecture, construction and interior design. Research, innovation and respect for the environment are the values that define the way we are.

SANICERAMIC GROUP

The Group's activity began in 1975 with the company Sanitrex as agents of ceramic tile factories for Arab countries, although Saniceramic wasn't constituted until 1993. In 2007, the second generation of the family decided to undertake a project to commercialize our own brand of ceramic products with the purpose of becoming a reference for trading companies in this industry. To this end, manufacturing agreements were signed with factories of the tile industry, so that we could subcontract their production, guaranteeing the best quality for the product and best service for our customers. In 2010, our main goal was market diversification so we started to focus on marketing our own brand and our products worldwide. Today, this project is a fact with a diversification in the markets that guarantees growth and sustainability.

Mayor

CERÁMICA

Cerámica Mayor S.A is a leading extruded clay manufacturing company with a long tradition in the production of pavements and special pieces both natural and glazed materials. The company was founded last century by Fernando Mayor Boluda and is today directed by the three Mayor brothers. In 2004 the facilities were expanded to produce long façade format tiles of up to 1.50 m long. And since 2015 it develops a new line of products intended especially for swimming pool coping.
