# TERRACOTTA CATALOG

[www.cordobaeye.com](http://www.cordobaeye.com)

Based on the highest efficiency standards and striving for ambitious goals, Cordoba Eye was founded to provide the best solutions for the Saudi construction market.

Since day one in 2011, the company has become well-known for its unique high-quality selection of products which were offered in its first branch in Riyadh. Over a decade of expertise can be enough to establish our renowned position in this market, but we still pursue our overactive imagination. We have built a relationship based on trust with our clients since they always find the best collection of Porcelain, Terracotta, and swimming pool mosaic tiles, adhesives and sanitary ware that they look for. We offer you the best collection from worldwide top brands and manufacturers as well as a professional service that facilitate our expansion to cover the vast areas all around KSA. The smart effective leadership of Cordoba Eye management along with its valuable deeply rooted experience created a fast growing brand that has become well known for a wide range of products and the ability to provide customized products for both small and large-scale projects. We can proudly say that we have served to create icons and marvels across KSA.

The background of the page is a light beige color. On the left side, there is a large, abstract graphic composed of several overlapping, irregular shapes in a slightly darker beige tone. These shapes are arranged in a way that suggests a curved wall or a large terracotta tile, with some shapes having straight edges and others being curved, creating a sense of depth and texture. The word "TERRACOTTA" is printed in a bold, dark grey, sans-serif font, centered horizontally on the right side of the page.
