In the past, cement was only used on the outside of buildings, but over the years, this rough material has conquered spaces and has seeped into the interior of the house giving meaning to the concept 'in-out'.

We are, without a doubt, in front of a material, the ceramic cement, immune to the passage of time and with a decorative capacity without limits because it fits perfectly with other materials such as stone or wood.

En otras épocas, el cemento estaba relegado al exterior de las edificaciones, pero, con el paso de los años, este tosco material ha conquistado espacios y se ha colado en el interior de la vivienda para dar sentido al concepto 'in-out'.

Estamos, sin duda, ante un material, el cemento cerámico, inmune al paso del tiempo y con una capacidad decorativa sin límites porque encaja a la perfección con otros materiales, como la piedra o la madera.

We have focused on this material with our Illinois collection to create stunning and tremendously beautiful designs. To better recreate the aesthetics, the tiles have been increased in size and the joints are almost eliminated, seeking visual continuity.

Illinois is available in multiple formats and finishes with a natural, simple and timeless look. This APE collection is designed in a neutral color range using the colors white, sand, pearl and grey.

Hemos puesto la mirada en este material a través de nuestra colección Illinois para crear diseños impactantes y tremendamente bellos. Para recrear aún más esa estética, las baldosas aumentan su tamaño y las juntas casi desaparecen, buscando la continuidad visual.

Illinois está disponible en múltiples formatos y acabados con una aspecto natural, sencillo y atemporal. La colección de APE se compone de una gama cromática neutra a través de los colores white, sand, pearl y grey.
